SOLUTIONS 2021

BOSSE SOLUTIONS

WELCOME AREA

When a customer enters a room, it is the first impression that dictates whether they feel welcome and at ease. The high-quality modul space furniture range combines timeless Bauhaus design with a simple building block principle. It offers intelligent office solutions and integrated room concepts for today and tomorrow. The atmosphere which is created in the room ignites a real spark at reception and opens the door to more fruitful conversations.

LOUNGE RANGE

TAKE A SEAT

The furniture from the Bosse Lounge range goes together perfectly with the modul space hanging elements. For example, the furnishings seamlessly reflect colour schemes you desire or the corporate interior design.

MULTIFUNCTIONAL USE

3-IN-1 SOLUTION

A range of different work situations create a variety of working conditions. The pieces of Bosse modul space furniture are truly multi-talented and bring great diversity to your rooms. They act as room dividers, create waiting spaces and meeting areas, and with their warm surface finishes such as wood or felt they engender a pleasant atmosphere in any room.

SUSTAINABILITY CONCEPT

MODERN OFFICE

We only produce high-quality furnishings made in Germany that are highly practical and will last for a long time. An office equipped with Bosse products will deliver a high degree of top-quality design, individuality and flexibility that is sustainable. Even after many years, the size and function of the Bosse modul space furniture can be expanded further. If you wish, panels and fronts can also be replaced with different colours.

PRODUCTIVITY

AGILE WORK

The modern world of work is more demanding and varied, vibrant and flexible than ever before. It is what inspires us to create furniture solutions geared to the challenges of day-to-day life in the office. The modular space furnishings are tailored to your needs, variable and modular to cater for changes. The high-quality tubes, connectors and panels form the basis of a system that can be used to create a wide range of different furniture and furnishing solutions.

WORK SPACES

YOUR DECISION

Inspired by the Bauhaus tradition, today more than ever Bosse is synonymous with timeless design. The perfect blend of form and function, achieved by consistently focusing only on what is essential. In your style or reflecting the corporate interior design. This produces timeless modern pieces of furniture with German craftsmanship. Exclusive original pieces whose radiance and aesthetic appeal impress in any kind of architecture.

WORK SPACES

BLACK EDITION

1 idea, 1,000 possibilities is given a new dimension by black as a modern classic. Tubes, connectors, handles, feet, castors: Where previously the character of Bosse modul space was defined by shiny chrome, a new homeliness is now taking over. The matt powder-coated parts blend elegantly and discreetly into the background and create completely new impressions of the classic with a timeless beauty.

INTERIOR SOLUTIONS

HOME OFFICE

Bosse modul space allows you to give your home office a stylish and modern design. There is room for everything in the wide variety of mobile storage units, cupboards, sideboards and display cabinets. The timeless design of the furniture creates one harmonious unit within a room. An ergonomically intelligent table system that you can stand or sit at encourages healthy work practices in the office and demonstrably eases the strain on the body. In a team or on your own: Bosse allows you to create the perfect conditions to facilitate a pleasant and effective workflow.

MODERN HOMELINESS

LIVING

An easy way to feel at home in your own four walls. The variety of products from modul space offers timeless, multifaceted furnishing solutions for your individual living situation. Relaxing luxury for demanding individualists and a design that expresses your personality.

BOSSE MEETS LE CORBUSIER

A WORLD OF COLOURS

With the “Polychromie Architecturale” system, Le Corbusier invented an ingenious colour system. Each shade is derived from nature and has an individual psychological relevance. The visionary thinker’s guiding principles on the effect of colour are relevant to the present day: Colour modifies the space, classifies objects. It also affects our body and mind. Be inspired by the radiance and effect of these colours. Create your own personal piece of furniture art with Bosse modul space in chrome and black and 12 selected lacquered shades from the Polychromie Architecturale range.

4320B blanc ivoire (0750 LC)

MODUL SPACE CONFIGURATOR

DESIGNED BY YOURSELF

Bosse modul space impresses with its timeless design "made in Germany", rounded off with a varied range of colours, materials and finishes. You can play around and configure the furniture of your dreams online with the Configurator!

BOSSE SPACE CUBE

STAY FLEXIBLE

Intelligent design for the future. The Bosse Cube offers a refined setting for confidential conversations. Perfect as a meeting room, for working collaboratively and as an individual office. The rooms are flexible and can be moved around because they are not attached to the shell of the building. The series 4 system is efficient to install and is equipped with ceiling-integrated lighting and ventilation.

BOSSE ACOUSTIC PODS

RETHINKING SPACES

Make phone calls without being disturbed, have confidential conversations or promote focused collaboration. The new-generation Bosse human space satisfies all these requirements. It is not just the response to the challenges of the modern world of work, but satisfies the most exacting aesthetic demands with its timeless, minimalist design.

DIALOGUE CUBE

UNDISTURBED WORK

A place of retreat is worth its weight in gold! There is now more focus on video conferencing than ever before. Employees need spaces in which they can take part in video conferences without being disturbed. The dialogue cube satisfies precisely these requirements for tomorrow's world of work. A productive conversation or a video conference that is held successfully without interruption can save time and money and significantly advance your projects.

THE POWER OF NEGATIVE IONS

ION-CLOUD

In the natural world, negative ions make the air pure and make us feel good. The negative ions stick to positively charged, harmful particles in the air and in so doing inactivate viruses, neutralise bacteria and render pollen, fungal spores, smoke particles and particulate matter harmless. The Bosse ION-Cloud has been shown to be effective in protecting you and your customers from infections in your rooms.

ION-CLOUD

SCIENTIFICALLY PROVEN

The ION-Cloud can also be configured in the Cube of your choice or be retrofitted at any time. The desktop device is suitable for your workplace and will envelope you in a protective cloud with an effective orbital range of up to 3 metres. To guarantee maximum added value and peace of mind for our customers and subsequent users, Bosse has subjected its new ION-Cloud product to scientific studies to examine the effect on bacteria and viruses (influenza, coronavirus, Staphylococcus aureus).

MANY YEARS OF EXPERT KNOWLEDGE

REFERENCES

Bosse is employed successfully around the world and has many years of expertise in a variety of different companies, sectors and architectures. We know what people need and want when it comes to room design and our innovative products allow individual solutions to be created. Elegant, functional and perfectly tailored to suit every single requirement.
